Locally Native Food Plants for Native Birds in Urban and Suburban Habitats of the Willamette Valley, Oregon

Compiled by B. Newhouse. Many records from Oregon Birders on Line (OBOL) and other sources.

- Some birds (such as grouse), browse on a wide variety of foliage. In general, plants specific to browsers are not listed here.
- Many plants attract insects, which in turn, provide food for many birds. In general, plants that attract insects attractive to birds are not listed here unless they have additional food value.
- Many species of plants offer cover and nesting habitats, in addition to food value. Only plants with notable food value are listed here.
- Many plants listed here are not yet available through the commercial nursery industry.
- See salixassociates.com for downloading this list, and EmeraldNPSO.org for more information on use of native plant species for landscaping.
- In general, names and ranges follow the Oregon Flora Project.

Key: **IN** = insects (particularly good); **SN** = seed or nut; **FF** = fleshy fruit; **NC** = nectar (hummingbirds)

T = Tree; S = Shrub; H = Herbaceous plant

Latin Name	Common Name	IN	SN	FF	NC	Т	S	Н	Notes
Acer macrophyllum	Maple, Bigleaf	IN	SN		NC	Т			
Alnus rhombifolia	Alder, White	IN	SN				S		Great yard tree; don't plant near other Alnus species.
Alnus rubra	Alder, Red	IN	SN			Т			Great yard tree; don't plant near other Alnus species.
Amelanchier alnifolia var. semiintegrifolia	Serviceberry, Pacific			FF			S		
Aquilegia formosa	Columbine, Red				NC			Н	
Arbutus menziesii	Madrone, Pacific	IN	SN		NC	Т			Great nectar source for hummers, insect source, fruit source.
Arctostaphylos columbiana	Manzanita, Hairy			FF	NC		S		Needs excellent drainage.
Arctostaphylos patula	Manzanita, Greenleaf			FF	NC		S		Needs excellent drainage.
Berberis aquifolium	Oregongrape, Tall			FF	NC		S		
Chamerion angustifolium	Fireweed				NC				
Chrysolepis chrysophylla	Chinkapin	IN	SN			Т			
Cirsium brevistylum	Thistle, Short-styled	IN	SN						Uncommon; goldfinches and related
Cirsium callilepis	Thistle, Mountain	IN	SN						Uncommon; goldfinches and related
Cirsium edule	Thistle, Edible	IN	SN						Uncommon; goldfinches and related
Cornus nuttallii	Dogwood, Pacific			FF	NC	Т			
Cornus sericea	Dogwood, Creek				NC		S		
Corylus cornuta var. californica	Hazel, California	IN	SN				S		

Latin Name	Common Name	IN	SN	FF	NC	Т	S	Н	Notes
Crataegus suksdorfii	Hawthorn, Suksdorf's	IN		FF		Т			
Delphinium trolliifolium	Larkspur, Tall				NC				
Dicentra formosa	Heart, Bleeding				NC				
Fragaria vesca ssp. bracteata	Strawberry, Woods			FF					
Fragaria virginiana ssp. platypetala	Strawberry,			FF					
Fraxinus latifolia	Ash, Oregon	IN	SN			Т			Moist areas: male trees = pollen, female = seeds.
Lilium columbianum	Lily, Tiger				NC				
Lonicera ciliosa	Honeysuckle, Orange				NC				Excellent for hummingbirds.
Lonicera hispidula	Honeysuckle, Hairy				NC				
Lonicera involucrata	Twinberry, Black				NC				
Malus fusca	Crabapple, Pacific	Ζ		FF		Т	S		
Mentha canadensis	Mint, Field				NC				
Mimulus cardinalis	Monkeyflower, Scarlet				NC				
Mimulus guttatus	Monkeyflower, Yellow				NC				
Oemleria cerasiformis	Osoberry	IN		FF			S		Plants are either male or female. Females produce the fruits.
Phoradendron villosum	Mistletoe, Oak			FF					White, waxy berries. Winter food for W. bluebirds.
Populus trichocarpa	Cottonwood, Black	Ζ			NC	Т			Roots may go far to find water. Not good near a house.
Prunus emarginata var. mollis	Cherry, Bitter	IN		FF	NC	Т			
Prunus virginiana var. demissa	Chokecherry	IN		FF	NC	Т	S		
Pseudotsuga menziesii var. menziesii	Douglas-fir	IN	SN			Т			
Quercus garryana var. garryana	Oak, Oregon White	IZ	SN			Т			Excellent insect diversity.
Quercus kelloggii	Oak, California Black	IN	SN			Т			
Rhamnus purshiana	Cascara			FF	NC	Т			
Ribes divaricatum	Currants, Straggly			FF	NC		S		
Ribes sanguineum	Currant, Red-			FF	NC		S		Outstanding hummingbird attractant.
Rubus spectabilis	Salmonberry			FF	NC		S		
Rubus leucodermis	Blackcap			FF					
Rubus ursinus	Blackberry, trailing			FF					
Salix hookeriana	Willow, Hooker's	IN			NC	Т	S		Roots may go a long way to seek water
Salix lucida ssp. lasiandra	Willow, Pacific	IN			NC	Т			Roots may go a long way to seek water

Latin Name	Common Name	IN	SN	FF	NC	Т	S	Н	Notes
Salix scouleriana	Willow, Scouler's	IN			NC	Т	S		
Salix sitchensis	Willow, Sitka	IN			NC		S		Roots may go a long way to seek water
Sambucus mexicana	Elderberry, Blue			FF		Т	S		Powdery blue fruits.
Sambucus racemosa var. arborescens	Elderberry, Red			FF		Т	S		Red fruits. Black-fruited subspecies native to E side.
Stachys cooleyae	Hedgenettle, Cooley's				NC				
Symphoricarpos albus var. laevigatus	Snowberry				NC		S		
Typha latifolia	Cattails	?	SN						Wetlands, pond edges.
Vaccinium parvifolium	Huckleberry, Red				NC		S		May not do well on Valley floor.
Viburnum ellipticum	Viburnum, Oregon	IN		FF			S
